

So here is what I am seeing
on my phone initially

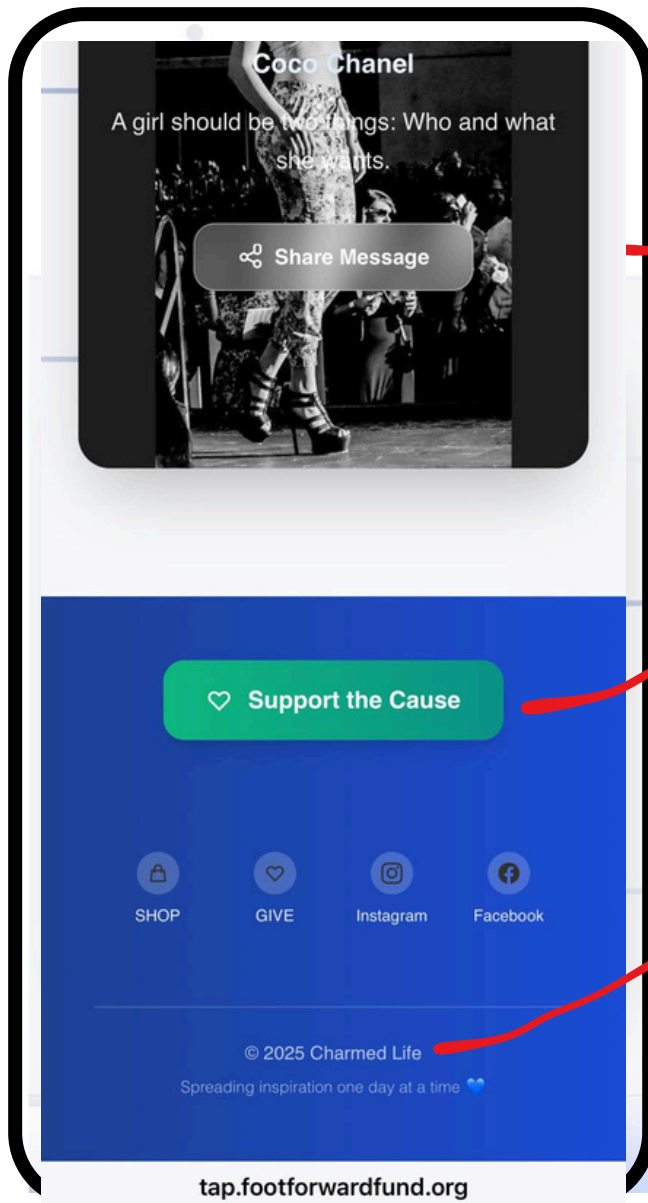

1. A gray border around the photo
the photo doesn't
fill the screen

2. The text is not offset by any kind of a
background to make it easier to read

3. The Share Message button takes up space
and I wonder if it is redundant to this
which seems to be a share of some kind
but it does not work?

Then, if I scroll down I see
this:

1.Gray border continues around
the photo

2.This consistently says
♡ Support the Cause

2.This credits 2025 Charmed Life

What I would LOVE
to see on my phone

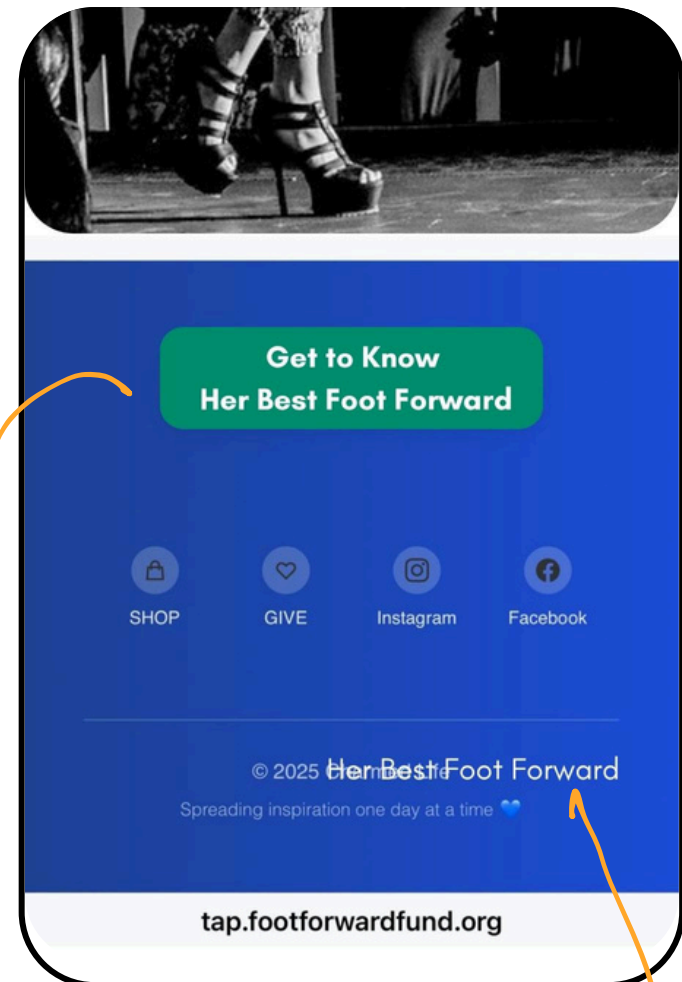

No gray border;
image or video
fills screen

No arrow box in
corner: it would be
fine if it really shared
the inspiration point

The text is offset by our
signature color
to make it readable

The Share Message is
less disrupting in this
position but if the little
box in the corner worked,
I would not even
have this element

Then, if I scroll down I see
this:

Green button consistently
says: Get to Know Her Best
Foot Forward and goes to
www.FootForwardFund.org;
says Support the Cause on the
2nd and 16th of month.

Ownership reference is
Her Best Foot Forward
